Mentoring is a system wherein every teacher guides the allotted mentees. The Mentee has to continuously monitor them throughout the academic session. It becomes very easy to have a closer connection with the mentees' lives physically, mentally and emotionally. Thus, we can create and lead them towards their holistic development.

I tried my level best to provide them proper guidance on personal as well as educational level. I observed that Mentor-Mentee Scheme played a vital role in their lives. I was allotted 81 students as a Mentee during the Academic Session 2019-20. The meeting was organized on 03rd Feb. 2020 at 10:00 am in the Department of Music and was attended by 52 students.

Mentoring is a very good system in which issues and problems of mentees are resolved by mentors. A mentor is an advisor and role model who is willing to invest in the mentee's personal growth and professional development. Being a mentor means interacting with a mentee and providing support and feedback to the mentee – in other words, it requires involvement with the mentee.

During the interaction, Mentees freely discussed the issues with Mentor. As a Mentor I tried my level best to guide on personal as well as educational issues and gave constructive suggestion for the overall development of the students. The continuous Mentoring System showed good improvement in the performance of the Mentees. It leads to make students more interactive and more attentive.

The few important issues which were raised and sorted out during mentoring session are mentioned below-

Sr. No.	Issues Raised	Issues Resolved
3	The need of separate Volleyball Courts for boys and girls	Two separates Volleyball Courts have been constructed.
2.	Increase in time for issuing books in the library.	The issue was brought to the notice of Librarian. The time for issue counter was raised by three hours. Earlier the timings were 9.00 am to 12.00 pm. New timing of issue counter is 9.00 am to 3.00 pm.

Mentoring System is a need of every educational organization. Role of mentor is very important in the system. Effective mentorship is actually a two-way conversation in which both Mentor and Mentee feel committed to the problem and share a desire to resolve it.

Under the scheme the college allotted me 81 students. As per our college policy Mentees were guided during the interaction throughout the academic year. The issues related to academic progress of the Mentees were prominently discussed. In our college the maximum students are from rural areas. Hence, naturally their life is full of struggle. To solve some personal problems Mentor-Mentee System plays a vital role in their life.

During the interaction period, some important issues were raised and resolved.

Sr. No.	Issues Raised	Issues Resolved

In order to maintain healthy and harmonious atmosphere in the institute, the college runs a Mentor-Mentee Scheme. Under this scheme, the college allotted me 81 students. Mentoring is a proper bridge between Mentor and Mentee. Mentees were guided throughout the year on various problems faced by them. In a good atmosphere mentee freely discussed the issues relating to college and the family also. It establishes the healthy relationship based on mutual understanding & trust.

The success of the Mentor-Mentee scheme can be measured in the sense that it helped us in understanding the real difficulties faced by the students. The students are sometimes unaware of the facilities provided by the college. Specially about the library, most of the students were unaware about the standard reference books, good journals for competitive exams, digital platforms like e-journal, e-books, online public access catalogue. During this interaction, I tried to provide guidance about all the information's resources we have at our disposal.

The continuous mentoring system showed good improvement in the attendance and attitude of the students in the Reading Room. It encouraged other students and helped in creating good academic atmosphere in the library.

During interaction with the Mentees, the following issues were predominantly raised.

Sr. No.	Issues Raised	Issues Resolved
1.	Need to increase subject text books	The matter was discussed with Principal and required number of text books have been purchased.
2.	Action be initiated against those who disturb others by using mobiles in Reading Room.	Such students have been warned against the use of mobiles in Reading Room. Notice has been circulated regarding the same.

In order to make the college atmosphere healthy & student friendly, our institution runs mentor-mentee scheme. It helps the students to solve their problem and boosts the self-confidence. I was allotted 81 mentees under the scheme.

During the course of discussion with students, I have noticed that students not only face academic problems but personal too. In such a condition, students need special guidance which is provided under this scheme. The proper guidance helps the mentees to get focused on their aims and objectives.

Particularly in my Music subject, students coming from rural background have to take more efforts while learning music. Blind students need special help to learn Music. Their struggle to match with the rest of the class is worth appreciating but sometimes it leads to disappointment. For such sincere students, extra efforts and attention are provided. Improvement in the performance of mentees have been observed since the Mentor-Mentee system has been introduced.

The few important issues were raised and resolved as mentioned below:

Sr No.	Issues Raised	Issue Resolved
1	Need of any helpline number for girls in emergency.	Helpline numbers have been displayed in the campus for girls and female staff.
2	Need for orientation regarding conduct, rules and regulations in the campus.	Every year Student Induction Programme is organised in order to orient the students regarding campus conduct, rules and regulations.
